zenker®

Zenker is a manufacturer from Bavarian Aichach that has linked quality and tradition for more than a century, always developing new ideas and true innovations for baking fun at home.

High-quality coatings such as teflon, ILAG or diamond enamel coating, exceptional and clever cake moulds such as the vanilla crescents baking tray and practical aids, such as the pastry case cutting aid, are only a few examples from the extensive range of products.

Zenker non-stick silicone bakeware molds and trays do not have to be greased and will still unmold without breakage.

Zenker. For you, this means quality you can trust, design and tried-and-tested practicality.
